DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dana L Tangren on October 7, 2004 , which agree the following:

In the Claims:

Please replace claim 39 with:

39. (Currently Amended) A method of providing an indication of at least one of meat quality, pH levels, and stress levels in an animal, the method comprising:

obtaining measurements corresponding to a body temperature of the animal at periodic sampling intervals over a predetermined time period;

determining an ~~indication~~ indicator or measure of the sum total extent of all of the variation in said measurements ~~as a whole~~ over said time period; and

comparing said ~~indication~~ indicator or measure of the sum total extent of all of the variation to a predetermined threshold to determine the indication.

Please replace claim 57 with:

57. (Currently Amended) A system for providing an indication of at least one of meat quality, pH levels, and stress levels in an animal to be slaughtered, the system comprising:

a body mountable measurement device for obtaining measurements corresponding to the body temperature of the animal at periodic sampling intervals over a period of between 3-36 hours; and

a processor or controller configured to:

receive said measurements from said measurement device;

determine an ~~indication~~ indicator or measure of the sum total extent of all of the variation in said measurements ~~as a whole~~ over said period;

compare said ~~indication~~ indicator or measure of the sum total extent of all of the variation to a predetermined threshold to obtain a result; and

providing said result of said comparison as output.

Please replace claim 95 with:

95. (Currently Amended) A method of providing an indication of at least one of meat quality, pH levels, and stress levels in an animal, the method comprising:

obtaining measurements corresponding to the body temperature of the animal at periodic sampling intervals;

determining that animal' mean body temperature reading over the predetermined time period;

calculating the variance between each measurement and the mean determined;
and
adding all variances to obtain a cumulative temperature variance score,
comparing said score to a predetermined threshold.

Please replace claim 98 with:

98. (Currently Amended) The method as claimed in ~~claims 96 or 97~~ claim 96
wherein the comparison is conducted after each application of the algorithm.

Allowable Subject Matter

2. Claims 39-41, 43-45, 47-67 and 89-108 are allowed.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 39, 41, 43-45 and 47-56 is the inclusion of the method steps of: determining an indicator or measure of the sum total extent of all of the variation in said measurements over said time period; and comparing said indicator or measure of the sum total extent of all of the variation to a predetermined threshold to determine the indication. It is these steps found in each the claim, as they are claimed in the combination that have not been found, taught or suggested by the prior art of record, which make these claims allowable over the prior art.

The primary reason for the allowance of claims 57-67 is the inclusion of the limitations of: determining an indicator or measure of the sum total extent of all of the variation in said measurements over said time period; and comparing said indicator or measure of the sum total extent of all of the variation to a predetermined threshold to obtain a result. It is these limitations found in each of the claims, as they are claimed in the combination, that have not been found, taught or suggested by the prior art of record, which make these claims allowable over the prior art.

In regard to the primary reason for the allowance claims 40, 52 and 89-108, please see office action on 7-1-2004.
